# PRE-ACCREDITED TRAINING

## Pre-employment Hubs

Winslow has a long history of supporting pre-employment initiatives, one of the best examples of this is the Pre-Employment Hub located at Olivine Estate in the North of Melbourne.

Winslow partnered in the establishment of an Employability's Skills Curriculum which is a training program **approved by the Adult Community and Further Education Board (ACFE)**. The curriculum was co-designed by Winslow and is specifically built to ensure trainees are 'boots on the ground' ready to commence a role in the construction industry.

The program is designed to **prepare students for employment in the Civil Construction Industry**, and acts as a funnel into Nationally-Accredited training, providing real impact for the learner and a lasting legacy for the community.
