

# Are you Job ready?

an  
Employability Skills DVD

The Brimbank/Melton Local Learning & Employment Network & Brimbank City Council have jointly funded a DVD to raise young people's awareness of the **Employability Skills Framework**

## FACTS

Last year over 3400 Brimbank & Melton senior secondary students participated in work placements in industry.

These placements included curriculum related requirements for structured workplace learning for VET courses, school based apprenticeships, traineeships and work experience.

These figures do not account for students who undertook regular part time work.

## THE CHALLENGE

In all industries, employers have an expectation that their employees, trainees and school based student employees possess basic knowledge of the elements of the Employability Skills Framework.

Although employers generally accept the need to provide ongoing training for staff, they also expect entry level employees to be able to demonstrate the eight employability skills.

This DVD will introduce you to the Employability Skills Framework, as discussed by employers, employees, trainers and students.

It can be used by Careers, VET & VCAL teachers and Pathway Coordinators, to prepare students for work placements.

“Are You Job Ready?” DVD will be distributed free of charge to all secondary schools in the Brimbank and Melton LGA's
