## Careers Fast Track

Introducing the  
**CAREER  
MANAGEMENT  
SYSTEM**

Careers Fast Track Pty Ltd (CFT) is a privately owned company established in 2000 to provide comprehensive career development solutions to assist:

- Individuals in their education and career-life cycle
- Companies to improve workforce engagement and productivity
- Career professionals to develop their skills and professional practice

CFT is now an international firm with clients from all over the world. CFT guarantees its' services and you can be assured that engaging a Careers Fast Track program is the right step towards your ultimate career-life goals.

### Vision

To continuously improve the integration of human giftedness and talent into society.

### Mission

To provide clients with leading edge information at each life-stage to identify and take action toward and create alignment between their personal, employment and career-life goals.

### Careers Fast Track in Brimbank and Melton

Careers Fast Track has a Career Management System which is delivered in schools across Australia, New Zealand and internationally. However, BMLLEN acknowledges CFT's commitment to assisting with the career development of many young people across Brimbank and Melton through this program plus other programs such as Employability Skills.

Nigel and Lisa Phillips are committed supporters of the BMLLEN and the young people in our region. CFT develops and delivers professional, highly engaging and effective Careers Development workshops and are consistently amongst our most popular and memorable presenters in forums hosted by the BMLLEN held for local secondary students.

The Brimbank Melton LLEN values highly the partnership with Careers Fast Track.

#### Sample testimonial:

*"Every student that has ever completed the Careers Fast Track questionnaires has come back with a greater confidence in completing their schooling. Parents love the overall report - very comprehensive. The personality profile is a useful part of the overall report. It allows students a greater understanding of themselves - why they think & act the way they do!"*
